Garden Mall Zagreb

The Garden Mall in Zagreb was opened in 2009 and offers a variety of all different kind of shops on a useable area of almost 26,000 m². The area of plot is 38,425 m² and provides 1,400 parking spots. The Garden Mall was built with investments of more than 70 million EUR and is situated in the outskirts of Zagreb. 75 international and national retailers, gastronomie, and service companies are represented on the huge complex.

Business Objective:

The most important objective for this project was the safety of customers and employees of the Garden Mall Shopping Center. The main consideration was to implement the most sophisticated CCTV, Fire Alarm und EVAC system in order to provide customized solutions as well as the highest security and safety standard.

Solution:

The installed solution comprises a CCTV system with 4 Divar XF and 60 Dinion cameras, an EVAC System Praesidio with 15 amplifiers and 600 speakers, and a Fire Alarm system with 2 FPA 5000 and more than 1000 detectors. The CCTV system considered as an antitheft system in the past is nowadays offering much more thanks to advanced features: monitoring of products and assets, assistance in managing manpower and operations as well as supporting safety equipment whenever incidents can happen.

The Praesidio Public Address and Voice Evacuation provides a top quality of background music and live speech calls. Besides creating a relaxed atmosphere for clients it moreover allows clear and fast evacuations within a few minutes in case of emergency.

The Fire System is based upon a 5000 Series Modular Fire Panel and allows complete control of fire detection in the shopping center. Its modular extension allows for easy extension, easy adaptation to country-specific regulations and conditions. For larger buildings the 5000 Series Modular Fire Panel is always the best option. The 1000 fire detectors offer the highest security and safety standard.

Garden Mall Zagreb

Result:

With the Bosch Modular Fire Panel 5000 series units, the CCTV system, and the EVAC system the shopping mall meets the highest security and safety demands. The prestigious shopping mall is very pleased with the flexible and easy-to-upgrade solution from Bosch.
